of Transportation

## NOTICE OF ACTION TAKEN

### Docket OST-98-4143

This serves as interim notice to the public of the action described below, taken orally by the Department official indicated; the confirming order or other decision document will be issued as soon as possible.

Applicant: **Antonov Design Bureau**

Date Filed: July 21, 1998

Relief requested: Exemption from 49 U.S.C. 40109(g) to operate one roundtrip emergency cabotage cargo charter flight between Seattle/Boeing Field, WA, and Wilmington, OH; during the period July 23-August 9, 1998, using AN-124 aircraft, carrying one outsized GE90 engine and related equipment for installation on Boeing 777 aircraft on behalf of General Electric Aircraft Engines.

Applicant representative: Sheryl R. Israel      202-663-8382

Responsive pleadings: Antonov served its application on those U.S. carriers operating large all-cargo aircraft. Each carrier indicated that it did not have aircraft available to conduct the proposed operations, and that it had no comment or did not oppose grant of the requested authority to Antonov.

### DISPOSITION

Action: Approved

Action date: July 22, 1998

Effective dates of authority granted: July 23-August 9, 1998

Basis for approval: We found that our action was consistent with all the relevant criteria of 49 U.S.C. 40109(g) for the grant of an exemption of this type, and that the grant of this authority was required in the public interest. Moreover, based on the representations of the U.S. carriers, we concluded that no U.S. carrier had aircraft available which could be used to conduct the operation at issue here. We also found that grant of this authority would prevent unreasonable hardship to Boeing.

Except to the extent exempted/waived, this authority is subject to the terms, conditions, and limitations indicated:

- Standard exemption conditions  
 Foreign air carrier permit conditions

Special conditions: The applicant shall comply with an FAA-approved flight routing for the authorized flight.
