

UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
WASHINGTON, D.C.

Issued by the Department of Transportation on June 4, 1999

NOTICE OF ACTION TAKEN -- DOCKET OST 99-5155

This serves as notice to the public of the action described below, taken by the Department official indicated (no additional confirming order will be issued in this matter).

Application of ALASKA AIRLINES, INC., filed 2/25/99, for:

XX Exemption for two years under 49 U.S.C. 40109 to provide the following service:

Scheduled foreign air transportation of persons, property, and mail between the terminal point San Diego, California, and the terminal point Mexico City, Mexico. Alaska proposes to serve the markets pursuant to a code-share arrangement with Continental Airlines, Inc., whereby Alaska will place its designator code on Continental flights in the San Diego-Mexico City market. (Continental provides seasonal service in this market.)

Responsive Pleadings: United filed a consolidated answer to Alaska's application, as well as to the applications of Northwest Airlines in Dockets OST-98-4832 and OST-99-5164, and Continental Airlines in Docket OST-99-5154. United maintains that it does not oppose grant of Alaska's application, nor similar applications filed by Continental (in Docket OST-99-5154), and Northwest (in Dockets OST-99-5164 and OST-98-4832), so long as United's outstanding applications to code-share with Compania Mexicana de Aviacion are granted no later than these applications.

DISPOSITION

XX **Granted, subject to conditions (see below)**

The above action was effective when taken: June 4, 1999, through June 4, 2001 or until 90 days after final Department action on a corresponding certificate application, whichever occurs earlier.

**Action taken by: Paul L. Gretch, Director
Office of International Aviation**

XX **The authority granted is consistent with the aviation agreement between the United States and Mexico.**

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated:

XX **Holder's certificate of public convenience and necessity**

XX **Standard Exemption Conditions (attached)**

(See Next Page)

Conditions: The U.S.-Mexico exemption authority granted is subject to the dormancy notice requirements set forth in condition 7 of Appendix A of Order 88-10-2. In addition:

- (1) The exemption authority granted is limited to services provided on a code-share basis only.
- (2) The code-sharing operations conducted under this authority must comply with 14 CFR 399.88 and with any amendments to the Department's regulations concerning code-share arrangements that may be adopted.¹ Notwithstanding any provisions in the contract between the carriers, our approval here is expressly conditioned upon the requirements that the subject foreign air transportation be sold in the name of the carrier holding out such service in computer reservation systems and elsewhere; that the carrier selling such transportation (*i.e.*, the carrier shown on the ticket) accept responsibility for the entirety of the code share journey for all obligations established in its contract of carriage with the passenger; and that the passenger liability of the operating carrier be unaffected.
- (3) The authority granted here is specifically conditioned so that neither Alaska Airlines nor Continental Airlines shall give any force or effect to any contractual provisions between themselves that are contrary to these conditions.

Remarks: Regarding the comments filed by United, we note that by separate action (Order 99-6-6), we have contemporaneously granted the applications filed by United, as well as the applications of other U.S. and Mexican carriers for U.S.-Mexico code-share services.

On the basis of data officially noticeable under Rule 24(n) of the Department's regulations, we found the applicant qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) immediate action was required and was consistent with Department policy; (2) grant of the exemption was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR §385.30, may file their petitions within ten (10) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.

¹ On March 8, 1999, the Department adopted a new regulation, Part 257, governing code-share operations. That regulation becomes effective July 13, 1999.
