DISPOSITION

XX Granted, subject to conditions (see below).

The above action was effective when taken: **January 12, 2000,** through **January 12, 2002,** or until 90 days after final action by the Department UPS' corresponding certificate application in Docket OST-99-6279, whichever occurs earlier.

**Action taken by: Paul L. Gretch, Director
Office of International Aviation**

XX The authority granted is consistent with the aviation agreement between the United States and Italy signed in Chicago on December 6, 1999.¹

Except to the extent exempted or waived, this authority is subject to the terms, conditions, and limitations indicated:

XX Holder's certificate of public convenience and necessity
XX Standard Exemption Conditions (attached)

Conditions: The authority granted to serve intermediate and beyond points in conjunction with Italy service is limited to countries with which the United States has signed open-skies agreements and/or countries for which the carrier holds authority to serve under certificates or exemptions issued by the Department, and for which it holds route integration authority, by virtue of either the present action or other action of the Department, and is subject to all conditions attached to that authority.

¹The United States and Italy have confirmed their intentions to permit operations consistent with the terms of the December 6, 1999 agreement, on the basis of comity and reciprocity, pending an exchange of diplomatic notes.

The route integration authority granted is subject to the condition that such operations are consistent with the applicable bilateral aviation agreements; and provided further, that (a) nothing in the award of the route integration authority requested should be construed as conferring upon UPS additional rights (including fifth-freedom intermediate and/or beyond rights) to serve markets where U.S. carrier entry is limited unless UPS first notifies the Department of UPS' intent to serve such a market and unless and until the Department has completed any necessary carrier selection procedures to determine which carrier(s) should be authorized to exercise such rights; and (b) should there be a request by any carrier to use the limited-entry route rights that are included in UPS' authority by virtue of the route integration authority granted here, but not being used, the holding of such authority by route integration will not be considered as providing any preference for UPS in a competitive carrier selection proceeding to determine which carrier(s) should be entitled to use the authority at issue.

On the basis of data officially noticeable under Rule 24(n) of the Department's regulations, we found the applicant qualified to provide the services authorized.

Under authority assigned by the Department in its regulations, 14 CFR Part 385, we found that (1) immediate action was required and was consistent with Department policy; (2) grant of the exemption was consistent with the public interest; and (3) grant of the authority would not constitute a major regulatory action under the Energy Policy and Conservation Act of 1975. To the extent not granted, we denied all requests in the referenced Docket. We may amend, modify, or revoke the authority granted in this Notice at any time without hearing at our discretion.

Persons entitled to petition the Department for review of the action set forth in this Notice under the Department's regulations, 14 CFR § 385.30, may file their petitions within ten (10) days after the date of issuance of this Notice. This action was effective when taken, and the filing of a petition for review will not alter such effectiveness.
